Innovative. Responsible. Committed to You.

RESIDENTIAL BATTERY RECYCLING PROGRAM

The Clinton County Solid Waste Authority is now accepting rechargeable and single-use batteries, in addition to lead-acid vehicle batteries, at the Authority's recycling center located on 337 Pine Mountain Road, just past the Restless Oaks Restaurant, in Wayne Township. Please note that electric bike batteries are not included in this recycling program.

Our goal is to provide a system to help keep batteries out of the trash, which in turn helps to minimize the potential for fires in trash trucks and the landfill.

This is a free service to residents of Clinton County. Businesses are not eligible to use this program.

Residential batteries can be dropped during our normal business hours, Monday thru Friday 7:00 am to 4:00 pm and Saturday 7:00 am to 12 Noon.
